

Here are the following steps I took to complete the Orange & Rockland Energy Affordability program.

On average, veterans are saving \$60 on their bills each month.

1. Copy and paste this link into your web browser
 - a. <https://www.oru.com/en/accounts-billing/payment-assistance/new-york/energy-affordability>
 - b. You need to have an online account already setup for this to work and the O&R account needs to be in your name
2. Login to your O&R account, rthis can be done from the link above
3. Scroll down and select “YES”
4. From the drop down menu, we are the 3rd option
5. The supporting documentation you will need for this is your VA benefit summary, find it on your computer and upload it
6. Scroll down again and type in your name in the signature box
7. Hit submit
